

▶ DISCOURSE / LINGUISTICS

**DISCOURSE/LINGUISTIC ANALYSES OF SPEECH**

Scientific analyses of speech to primarily determine the intent of speakers, whether or not the speakers have a mutual understanding during the conversation, and to provide a basis of an entrapment defense, etc.; also employed as a secondary form of forensic authenticity analyses of audio evidence, or the audio track of video evidence.

Senior Partner **Al Yonovitz, Ph.D.** is a Professor of the Speech and Hearing Sciences, and has been involved in the academic, clinical, research and forensic aspects of speech for over 40 years.

**YONOVITZ & JOE, LLP**
